*Special Sale Feb. 26<sup>th</sup> 2026*

# KELLOGG ANGUS CATTLE, LLC

6755 S. 4060 RD.  
TALALA, OK 74080  
(918) 275-4080

February 26, 2026

Dear Valued Customer:

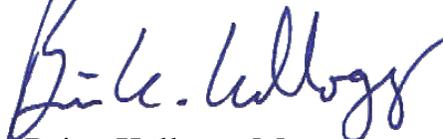

I would like to personally thank you for attending and possibly purchasing one or more of our Angus Bulls. Hopefully I have had the opportunity to meet you. If not feel free to give me a call anytime, I would like the opportunity to discuss your purchase and get your contact information. Upon the purchase of a Kellogg Angus Bull you will receive a Breeding Soundness Exam Report, performed by Dr. Mike Alexander, DVM, and the bull's Angus Association Registration Papers. We also offer the Kellogg Angus Cattle Guarantee as outlined below with the purchase of our bulls.

We guarantee that all bulls sold by Kellogg Angus Cattle, LLC, are fertile to the best of our knowledge and have passed a Breeding Soundness Exam 30 days prior to the sale. Although all bulls have passed a BSE, we know certain problems can arise after you receive your purchase. To help ensure your investment, Kellogg Angus Cattle, LLC, will guarantee all bulls selling against breeding injury, and to be sound breeders for the first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. We will provide you with a satisfactory replacement, if available, or issue you a credit equal to the bull's purchase price minus the salvage value received for that bull.

This is not a life insurance policy. We will not replace a dead animal if it is killed or dies for any reason. We strive to raise the best bulls we possibly can by utilizing common sense combined with all the technology and information available. To the best of our knowledge the bull you have purchased is free of known genetic defects by pedigree or genetic testing unless otherwise noted.

We trust that you will have excellent results with your bull and look forward to doing business with you in the future.

Kellogg Angus Cattle, LLC  
An Oklahoma Limited Liability Company

Brian Kellogg, Manager  
(918) 275-4080

# Don't buy an **imposter.**

Not all "Angus" bulls are **REGISTERED** Angus bulls.

If you see this logo in conjunction with an individual animal or group of animals, you know that that animal is registered with the American Angus Association and backed by the power of **data, programs** and **pedigrees** of the Association.

Invest wisely in those that carry the **Powered By Angus** logo.

Look for the **REGISTRATION NUMBER.**

For more information on the Powered By Angus program, visit:

*Angus.org/PBA.*

# THE HD50K™ FOR ANGUS

**HD50K™ FOR ANGUS IS A GENOTYPING TECHNOLOGY FROM ZOETIS DESIGNED FOR ANGUS SEEDSTOCK PRODUCERS AND FULLY ENDORSED BY THE AMERICAN ANGUS ASSOCIATION AND ANGUS GENETICS, INC.**

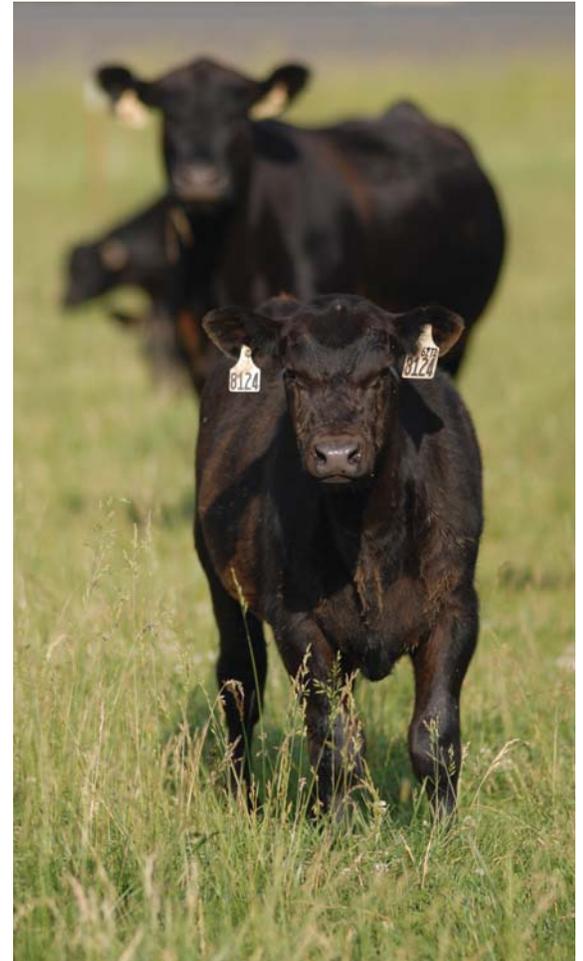

HD50K™ for Angus replaces i50K™ and the previous version of HD 50K™, and represents an advancement in Angus genotyping technology.

## **ZOETIS PROVIDES COMPREHENSIVE GENETIC AND MANAGEMENT SOLUTIONS FOR BEEF PRODUCERS:**

- 17 staff Ph.D. geneticists driving cutting edge research and development as well as field and customer support across the livestock business
- First to market with novel wellness traits in dairy cows and calves
- Development of innovative decision support tools
- Unmatched technical support and customer service

## **SELECT, MATE AND MARKET ANGUS SEEDSTOCK WITH CONFIDENCE:**

- Commercial bull buyers increasingly request GE-EPDs
- HD50K™ for Angus tested bull batteries enable Sire Match for GeneMax® Advantage™ tested heifers
- Reduce selection and breeding mistakes—with HD50K™ for Angus

HD50K™ for Angus is available to American Angus Association members through Angus Genetics, Inc. and may be purchased online through the AAA Login site.

*HD50K™ for Angus: The people, the products, and services you have always relied on.*

# FASTER PROGRESS, GREATER RETURNS

Targeting the Brand™ identifies registered Angus bulls with the genetic potential to sire calves more likely to meet all 10 *Certified Angus Beef*® brand specifications.

## Minimum Genetic Requirements

Marbling EPD (Marb)	+0.65
Grid Value (\$G)	+55.0

For more information on Targeting the Brand™ visit [CABcattle.com](http://CABcattle.com).

## KELLOGG ANGUS SELECTION PHILOSOPHY

At Kellogg Angus, our selection process blends the experience of a trained cattleman with modern fact-based scientific data. We focus on four major traits of equal importance:

- Growth (pounds)
- Calving ease (live calf)
- Maternal ability (average or better calf every year)
- Carcass quality (high-quality product)

We pay close attention to all other traits as well, but we remain committed to balanced selection. We avoid overemphasizing any single trait and strive to produce well-rounded functional cattle.

We select AI sires and herd bulls by evaluating current EPDs (Expected Progeny Differences), comparing accuracies, and conducting in-depth pedigree and progeny analysis. EPDs are a widely recognized scientific tool for fairly comparing animals across different herds and management conditions. Note that younger animals without progeny data have lower accuracy values for specific EPD traits, but those accuracies increase substantially as more progeny information becomes available. The closer an accuracy approaches 90%, the more reliable the EPD becomes. Pedigree analysis is one of the most demanding and valuable aspects of our process, requiring years of experience. We strongly believe that an animal's pedigree combined with the performance of its progeny is one of the best predictors of how it will perform in our herd.

We have found that relying solely on Adjusted Weights from different ranches with varying management practices is difficult at best and often unreliable. Animals are not raised, fed, or developed under identical conditions, so we place greater emphasis on within-herd ratios than on adjusted weights. All weight measurements at Kellogg Angus from birth weight (BW) to yearling weight (YW) are taken with extreme care, integrity, and accuracy. The resulting ratios show whether a particular animal performed above or below the herd average for a given trait. We believe it is important to provide these within-herd ratios for every bull we offer, as they help guide your selection decisions.

Ultimately, only you, the customer, know your herd's specific goals and challenges. By sharing our philosophy of combining EPDs with within-herd ratios, we hope to help you choose the bull that best fits your needs.

**Our goal is simple, to raise and deliver a Kellogg Angus bull that performs well for you and your herd.**
